Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brian L. Klock registration 36,570 on February 19, 2003.

The application has been amended as follows:

In claim ²¹24, line 1, after 'method', add the following:

C1 ✓
--Which identifies a correction condition indicating a position and orientation of a capture unit adapted to capture a picture in a real space containing a plurality of landmarks whose positions are known in a real three-dimensional array|--

In claim 24, line 3, "a capture unit" has been deleted and -- the capture unit-- has been inserted.

Amendment to claim 24 was made to define over the applied prior art. The additional step of "identifies a correction condition indicating a position and orientation of a capture unit adapted to capture a picture in a real space containing a plurality of landmarks whose positions are known in a real three-dimensional array" now positively claims the position and orientation

determination method and apparatus defined in the specification. This system is deemed to be non-obvious over the systems of the prior art.

Allowable Subject Matter

2. Claims 1-3, 6-20 and 22-24 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 24 contain allowable subject matter. None of the prior art of record shows or fairly suggests the claimed invention.

Regarding claim 1:

The primary reason for the allowance of claim 1 is the inclusion of the position and orientation determination apparatus which identifies a parameter indicating a position and orientation of a capture unit adapted to capture a picture in a real space containing a plurality of feature points whose positions are known in a three-dimensional array, including an image generation unit adapted to generate an image of a virtual object based on the corrected parameter, and to superimpose the image of the virtual object on the picture in the real space captured by the capture unit. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 2, 3, 6-20 are allowed due to their dependency on claim 1.

Art Unit: 2863

Regarding claim 24:

The primary reason for the allowance of claim 24 is the inclusion of the information processing method which identifies a correction condition indicating a position and orientation of a capture unit adapted to capture a picture in a real space containing a plurality of landmarks whose positions are known in a real three-dimensional array including the steps of acquiring a measurement result obtained by detecting a plurality of landmarks from an image captured by the capture unit, generating a viewing transform condition based on the measurement result, generating a correction condition using the plurality of landmarks detected in said detecting step, generating a virtual image based on the viewing transform condition and the correction condition, and combining the generated virtual image and the captured image. It is these features found in the claim, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Claims 22, 23 are allowed due to their dependency on claim 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
